NOTE: All Sansevierias, Bulbs and Canes are shipped Boat to New York and then Express to destination. They can be shipped airfreight from Porto Rico at the customer's expense. Other plants shipped via airfreight to Miami or New York then Railway Express or airfreight to destination. If designating airfreight, specify which airport and your telephone number.

R.C. and Potbound - not always immediately available.

Plan order 2 months in advance.

250 plants take per 1000 rate.

You will notice several items offered as "foil grown." These are unrooted cuttings placed in a small ball of sphagnum moss and wrapped in aluminum foil and held at the nursery until fully rooted. This method has a two fold advantage over rooting in beds. First - no shock, plants are shipped as they are growing. Second - sphagnum moss is an excellent disease inhibitor, recommended highly by the Dept. of Agriculture. A secondary advantage is a saving in freight over shipping plants as potbound.
